

Discover the future of modern cloud-accounting for your business.

Imagine what you could achieve if you could...

Streamline and integrate your business processes

Make smarter decisions faster

Accelerate business growth

Use flexible, scalable tools that grow with your business

And do it all from wherever you are, on any device, using the business applications you rely on every day.

With Microsoft Dynamics 365, you can do just that.

Microsoft Dynamics 365 Business Central is a modern, flexible and scalable cloud-based management solution designed for businesses just like yours, fully integrated with Office 365.

Take control of your accounting

Make use of connected data and detailed analysis across accounting, sales, purchasing, stock and customer transactions, as well as:

Tracking financial performances in real-time

Accelerating financial closes and reporting

Improving forecast accuracy

Maintaining compliance and security

Drive more sales and enhance your services

With a connected view of your customers and service operations, you can manage the sales process and deliver exceptional service from start to finish within Microsoft Outlook. Not only that, you can also:

Prioritise sales leads based on revenue potential

Accelerate the sales process

Assign resources more effectively

Boost profits and better plan projects

Ensure projects remain profitable by planning and monitoring using real-time metrics on project status, profitability and resource usage.

- Develop, modify, and control your budgets
- Manage resource levels
- Make effective decisions

Create a smarter supply chain

Take advantage of an end-to-end view of your operations across purchasing, manufacturing, stock and warehouse management.

Predict optimal stock levels and when to replenish

Calculate manufacturing capacity and resources

Deliver orders on time with a holistic view of stock

Talk to us about unlocking the power of an all-in-one management solution for your business.

At Synergi, our focus is on improving productivity, efficiency, security and insight for your business. We partner with you to deliver tools like Microsoft Dynamics 365 Business Central that empower and enable you and your teams while meeting your company's unique needs, both today and in the future.
