# Drive Microsoft Teams Adoption
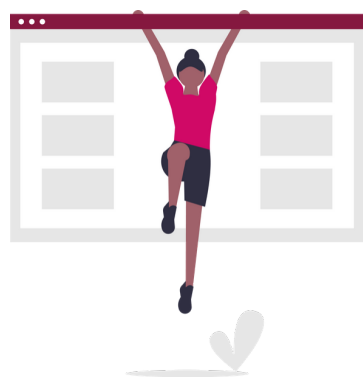

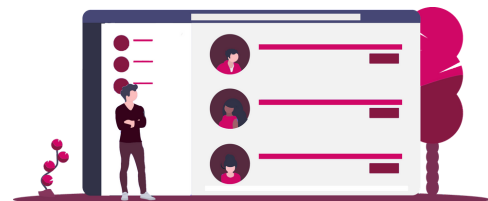

With Powell Teams

Easy-to-use admin console
that makes Teams management a breeze, no coding or technical knowledge necessary

Smart user dashboard
that compiles the news, recent activity, important documents, and more in one place

Templates
that allow you to predefine settings, channels, and tabs

Customized reporting
to better understand how your organization uses Teams

Artificial Intelligence recommendations
that make sure the right people see the right content

Organization tools
that control naming and prevent duplicates
